

I am interested in hearing what the veterans who were prisoners of war have to say about John Kerry's role as an anti-war activist. If they want to be interviewed on a news broadcast, along with possible dissenting opinions, I'd be happy to watch. However, I will under no circumstances watch a political attack ad disguising as "news", and, in effect, a campaign contribution for Bush than I would watch Fahrenheit 9/11 masquerading as "news". Your role is to protect democracy from being undermined by any one special interest. I urge you to act to prevent Sinclair from taking this free ride. Make them pay their way. Thank you for your attention.
